Retreat and service project

I want to encourage all of you to get involved with the youth group if you are not already. We are hoping to make our youth group a place that each will look forward to coming to. Not just on Wednesday and Sunday but whenever events are planned. Our group is growing and now has over 25 teens with an additional 25 smaller kids. This takes a lot of planning and hard work for us all. The one thing I don't want is for any of you to feel your not part of this church. I will not let your voices be silent. Church is more than just one hour on Sunday morning. Church is you and me. I hope to make church a place of excitement and not a place where you feel you just have to go because mom and dad said so. Together we can make our youth group the best around. We're heading that way. Keep up the hard work. I am proud of you guys when you step up. Each of you must be ready to participate with the upcoming events. I will need each of you and I know you will answer the call. Thanks—Johnnie
